

MODULE : BLOCK IMAGES GALLERY SLIDER

AUTHOR : QUADRA INFORMATIQUE

CONTACT:ecommerce@quadra-informatique.fr

This module display a carousel in the center column on the homepage.

The images are uploaded in the module through the back office.

To add a new image or to edit an existing one, click on the « Catalogues » tab and the « Gallery slider » tab.

This page displays the images of your carousel.

You can use the « Add new » button to add new images to your slider.

To change an image or to change informations concerning an image, click on the corresponding line in the list.

To delete an image from the list, click on the « Delete » button found click on the corresponding line in the list.

You have the possibility to resize the images and by the same way the size of your carousel (which depends on the size of your images).

On the homepage, you can choose either to display the thumbs on the top or on the right of the big images. You can configure this option by using the checkbox <Vertical Display>.

You must save your configuration after each modification.

Note: This module is compatible for prestashop 1.4 and above version.
