MODULE : QUADRA GALLERY SLIDER

AUTHOR : QUADRA INFORMATIQUE

CONTACT: ecommerce@quadra-informatique.fr

This module display a carousel of images on the homepage.

On the configuration page of the module, you can set the height and the width of the images you want to display on the homepage.

On the homepage, you can display the thumbs on the top or on the right of the images. This option can be configured by using the radio box « Vertical display ».

When installing this module, the « Images carousel » tab is added in the « Catalog » tab.

On this page, you can add new images by clicking on the button « Add new ».

After adding your image, the image and the corresponding informations will be displayed in the table.

To change an image or to change informations concerning an image, click on the corresponding line in the list or use the « Edit » button.

To delete an image from the list, click on the « Delete » button found on the corresponding line in the list. The image will also be deleted from the database.

You must save your configuration after each modification.

Note: This module is compatible for prestashop 1.4 and above version.
